Attention of Mr. Meye

Dear Mr. Meye:

Mr. Wood told me of your desire to get in touch with someone who could prepare electrotypes of some of the Aztec and Peruvian statuettes in gold in your Collection.

For electrotypes of medals, we have all our work done by the Medallie Art Company of this city, who have given us fullest satisfaction. They have informed me, however, that they are not in a position to make electrotypes of figurines or statuettes in the full round. I then asked if they could inform me of someone whom they could recommend, and they replied that they were sure that you would secure entirely satisfactory results from the Armor Bronze Company, 235 Fifth Avenue. We have never had anything done by them, but we have every reason to believe that the recommendation of the Medallie Art Company will be borne out.

Very respectfully yours,

Secretary

Gentlemen:

It has been deemed advisable by Dr. Bowman and myself to make a change with the night watchman on the grounds. In obtaining a new man, the probability is that we shall have to pay him \$100 a month; which means that your share will be \$25 per month.

Trusting that this will be satisfactory to you, believe me

To the Board of Directors of

New York, N. Y.

Gentlemen:

Our Chairman and Director, Mr. Heye, at the meeting of our Board of Trustees held on December 7th, called attention to the fact that you had permitted our Institution to store canoes in the cellar of your building for which we had no room in our building at 155th Street, and pending the completion of our new building on the Southern Boulevard in the Bronx.

Now that we have completed our new building and have been able to move the material from your cellar thereto, our Board of Trustees has instructed me to extend to you on its behalf its sincere thanks for your great courtesy in allowing us the free use of your cellar space during the time when our Institution was so cramped for storage room. It is indeed a pleasure to record this action on the part of our Board and to notify you of the action taken.

With appreciation of this evidence of the fine co-operative spirit which marks all of the institutions located on our block, I am

Respectfully yours,
